We will train you in research methods and methodologies and expose you to the profession's latest thinking, techniques

While you are learning the core elements required of accountancy professionals, we will also prepare you for the professional exams set by the Academy of Professional Accounting

About Goods & Service Tax (GST)

Goods and Services Tax (GST) is a proposed system of indirect taxation in India merging most of the existing taxes into single system of taxation. It was introduced as The Constitution (One Hundred and First Amendment) Act 2016. The GST is administered & governed by GST Council and its Chairman is Union Finance Minister of India Arun Jaitley.

GST would be a comprehensive indirect tax on manufacture, sale and consumption of goods and services throughout India, to replace taxes levied by the central and state governments.

This method allows GST-registered businesses to claim tax credit to the value of GST they paid on purchase of goods or services as part of their normal commercial activity. Taxable goods and services are not distinguished from one another and are taxed at a single rate in a supply chain till the goods or services reach the consumer. Administrative responsibility would generally rest with a single authority to levy tax on goods and services. Exports would be considered as zero-rated supply and imports would be levied the same taxes as domestic goods and services adhering to the destination principle in addition to the Customs Duty which will not be subsumed in the GST

APA in Association with GST center
